In accordance with “Tenure and Promotion of Tenure-Track and Tenured Non-Library Faculty.”
[MAPP 02.02.27]

The College of Fine Arts and Communication at Lamar University has established an academic process to enhance teaching proficiency, effectiveness, and professional growth. This structured approach involves a series of evaluations, observations, and reviews, emphasizing the significance of both required and optional components within the context of faculty development. By fostering continuous improvement and providing objective assessments, these processes contribute to the overall quality of education and support tenure and promotion decisions, ensuring that faculty members are equipped to excel in their teaching roles and contribute meaningfully to the academic community.

In the first year, faculty members undergo a comprehensive process that includes both a CTLE (Center for Teaching and Learning Excellence) observation and a syllabus review. During the CTLE observation, the faculty member's class is observed, and the syllabus for the specific course being taught is reviewed. Additionally, the course materials available on Blackboard (or the current Learning Management System) are evaluated. It is crucial to schedule this observation with CTLE within the first three weeks of the semester. The completion deadline for the observation and syllabus review is November 30. Furthermore, during the spring semester, faculty members must undergo at least one observation conducted by their department chair.

The observation and feedback process benefits faculty members by promoting professional development, ensuring accountability, and providing objective assessments. It contributes to tenure and promotion decisions by offering evidence of teaching effectiveness and improvement over time. All Chairs (Years 1 & 3) and Committees (Years 2 & 4) in the College of Fine Arts and Communication (COFAC) use the "Teaching Proficiency & Effectiveness – Tenure & Promotion Observation Form." This form provides a structured framework for evaluating teaching practices. Over the 5-year period, the average score of observations (combined Chair and Committee) should be at least 3.5. Demonstrating improvement over time is essential for tenure and promotion. All observations must be completed by April 30. If a department lacks personnel to form a committee for the 2nd- and 4th-year Reviews, the Dean will assemble a committee. Adhering to these processes ensures continuous improvement in teaching effectiveness and contributes to the overall quality of education within the academic community.

In the second year, faculty members follow Lamar University guidelines for the 2nd-year review. Specific criteria and expectations are outlined to assess teaching proficiency and effectiveness. In the third year, which is like the first year, faculty members repeat the process of CTLE observation and syllabus review, but this time for a different course. The goal remains consistent: to ensure effective teaching practices and alignment with course objectives. During the fourth year, faculty members follow Lamar University guidelines for the 4th-year review. This review evaluates teaching effectiveness, research contributions, and overall performance.

In the fifth year, faculty members begin preparing their tenure & promotion portfolio for submission in the sixth year. These materials play a crucial role in tenure and promotion decisions. The faculty member may want to ask the chair and one or more faculty members, who have recently submitted a portfolio, to provide unofficial feedback on the portfolio. The recommended timeline is to provide someone with at least one month to review the portfolio.

Additionally, the faculty member may want to request to see the portfolio of someone who has recently matriculated through the process.

The structured evaluation and feedback process in the College of Fine Arts and Communication at Lamar University aims to enhance the educational experience for students. Through detailed assessments, syllabi reviews, and peer evaluations, the program fosters effective teaching practices and continuous improvement. This focus on continuous improvement directly benefits students, providing them with high-quality education and fostering an engaging, supportive learning environment. As faculty members develop through this process, they are better equipped to inspire and educate, contributing to the success of both them and their students.
